## School Accountability Report Card

### Reported Using Data from the 2018-19 School Year

#### Published During 2019-20

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### **DataQuest**

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### **Internet Access**

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## School Description and Mission Statement (School Year 2019-20)

Mission: John F. Kennedy Middle College high school is a school of choice for self-directed learners desiring a supportive environment where they can pursue college and career pathways by taking Norco College and Kennedy courses concurrently.

Vision: John F. Kennedy Middle College high school envisions a school where all students take Norco College courses, complete a minimum of 30 Norco College units, and graduate career and college ready with all A-G requirements met.

John F. Kennedy Middle College High School was founded in 2006 as an "Alternative School of Choice" in the Corona-Norco Unified School District. Built on the campus of Norco College, JFK students attend high school and college classes throughout the school day. JFK serves a regional population drawing students from counties including Riverside, San Bernardino, Orange, and Los Angeles and is currently one of the largest middle college programs in the nation.

While we are large compared to other middle college high schools, we are small and intimate when compared with comprehensive high schools. Our entire staff works to instill a sense of caring and individual support with each and every student at JFK. As a result, we have a school environment where students feel supported to achieve their highest academic goals.

Students at JFK also have the ability to take as many as two years of college courses at Norco College. The opportunity to take college classes helps students grow both academically and socially – the expectation is that they will perform and behave like college students, and our students respond to these expectations with great success. Students apply to a four-year college or university and receive credit for up to two years of their coursework.

The central purpose of JFK is to provide opportunities for students who fall into categories generally perceived as being “under represented” to access career and collegiate pathways. While at more traditional high schools, our students were often overshadowed by higher achieving students or by those with greater needs. Often they were not engaged in their former schools which resulted in their inability to reach their fullest potential. Our approach in working with students is to identify gaps in their learning, effort, and achievement. We then address identified gaps by prescribing curriculum, making classes relevant, providing appropriate rigor, and building relationships.

Due to the joint focus on supporting the “middle-performing” student and access to college courses, JFK does not offer Advanced Placement or International Baccalaureate classes. Indeed, the focus of our school is not on ranking; therefore, we do not select valedictorians or salutatorians. Instead, we support all students towards college and career readiness and success while still in high school. Colleges and universities accept our students with confidence, knowing they have already met with success in a college environment and will transition well to a full-time program of higher education.

JFK Middle College provides a nurturing, academically rigorous environment for students to ensure high school completion and success in their careers, college, and beyond. We are creating conscious contributors to society, one student at a time.

## A. Conditions of Learning

### State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

### Teacher Credentials

Vacant Teacher Positions	0	0	0

Note: "Misassignments" refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc.

\*Total Teacher Misassignments includes the number of Misassignments of Teachers of English Learners.

## Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2019-20)

**Year and month in which data were collected:** September 3, 2019

All textbooks used in the core curriculum are aligned to the California State Standards. Instructional materials are selected from the state's most recent list of standards-based materials and adopted by the State Board of Education. The district follows the State Board of Education's six-year adoption cycle for core content materials (English/language arts, math, science, and social science).

On Tuesday, September 3, 2019, the Corona-Norco Unified School District's Board of Education held a public hearing to certify the extent to which textbooks and instructional materials have been provided to students. The Board of Education adopted Resolution No. 46 which certifies as required by Education Code §60119 (1) that textbooks and instructional materials were provided to all students, including English learners, in the district to the extent that each pupil has a textbook or instructional materials, or both, to use in class and to take home, and (2) sufficient textbooks and instructional materials were provided to each student, including English learners, that are aligned to the academic content standards and consistent with the cycles and content of the curriculum frameworks in math, science, history-social science, and English/language arts.

In addition to core subject areas, districts are required to disclose in their SARCs the sufficiency of instructional materials used for their visual/performing arts curricula. During the 2019-20 school year, Corona-Norco Unified School District provided each student, including English learners, enrolled in a visual/performing arts class with a textbook or instructional materials to use in class and to take home. These materials complied with the state's content standards and curriculum frameworks.

## School Facility Conditions and Planned Improvements (Most Recent Year)

The district takes great efforts to ensure that all schools are clean, safe, and functional through proper facilities maintenance and campus supervision. John F. Kennedy Middle College High School's original facilities were built in 2006; ongoing maintenance and campus improvements ensure facilities remain up to date and provide adequate space for students and staff. District maintenance and site custodial staff ensure that the repairs necessary to keep the school in good condition are completed in a timely manner. A work order process is used by school and district staff to communicate non-routine maintenance requests.

Every morning before school begins, the custodian inspects facilities for safety hazards or other conditions that need attention prior to students and staff entering school grounds. One day custodian and two evening custodians are assigned to John F. Kennedy Middle College High School. The day custodian is responsible for:

- Classroom cleaning
- Groundskeeping
- Restroom cleaning
- Event setup/cleanup

Restrooms are checked regularly throughout the day for cleanliness and subsequently cleaned as needed. The evening custodians are responsible for:

- Classroom cleaning
- Office area cleaning
- Restroom cleaning
- Event setup-cleanup

The principal communicates with custodial staff daily concerning maintenance and school safety issues.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## Career Technical Education Programs (School Year 2018-19)

Students in grades nine through twelve receive counseling from school personnel regarding career paths and courses of study. During their sophomore year, students meet with the counselor to discuss their four-year academic plan and are introduced to John F. Kennedy Middle College High School's technical and career education programs; the counselor meets at least twice a year with each student to follow-up on their progress in meeting graduation requirements and career objectives. All career and John F. Kennedy Middle College High School 9 2016-17 School Accountability Report Card technical education (CTE) courses are taught on the Norco campus and comply with state-adopted content standards and are integrated into the student's four-year academic plan as elective courses. John F. Kennedy Middle College High School offers the following programs that promote leadership, develop job-related skills, provide on-the-job experience, and increase interest in school:

- California Colleges
- CTE Pathways via Norco College
- College & Career Readiness
- Student Seminars (guest speakers and seminars)

Individual student assessment of work readiness skills takes place through:

- End of course exams
- Completion of course-required projects
- California Cruising Portfolio

California Colleges is an online, interactive career resource that provides students with interest inventories, matches students with careers they might find interesting, and provides college and career planning tools that integrate the 15 California Career Technical Education industry sectors. JFK Middle College High students create Individual Learning Plans and complete online portfolios demonstrating college and career readiness. During the 2016-17 school year, John F. Kennedy Middle College High School students had access to CTE courses via Norco College.

For more information on career technical programs, ROP, workability, partnership academies, and work experience, contact the counselor or visit the state's career technical website at <http://www.cde.ca.gov/ci/ct/>.

### Types of Services Funded (Fiscal Year 2018-19)

For the 2015-16 school year, Corona-Norco Unified School District spent an average of \$9,901 of total general funds to educate each student (based on 2015-16 audited financial statements and in accordance with calculations defined in Education Code §41372). The table in this report 1) compares the school's per pupil expenditures from unrestricted (basic) and restricted (supplemental) sources with other schools in the district and throughout the state, and 2) compares the average teacher salary at the school site with average teacher salaries at the district and state levels. Detailed information regarding salaries can be found at the CDE website at [www.cde.ca.gov/ds/fd/ec/](http://www.cde.ca.gov/ds/fd/ec/) and [www.cde.ca.gov/ds/fd/cs/](http://www.cde.ca.gov/ds/fd/cs/). (The figures shown in the table below reflect the direct cost of educational services, per ADA, excluding food services, facilities acquisition and construction, and certain other expenditures.)

In addition to general fund state funding, Corona-Norco Unified School District receives state and federal categorical funding for special programs. For the 2015-16 school year, the district received categorical, special education, and support programs funds for:

- After School Education & Safety (ASES)
- Agricultural Career Technical Education Incentive
- California Career Pathways Trust
- California Clean Energy Jobs Act
- Department of Rehabilitation
- Education Protection Account
- Lottery: Instructional Materials

### Professional Development (Most Recent Three Years)

Measure	2017-18	2018-19	2019-20
Number of school days dedicated to Staff Development and Continuous Improvement			

All training and curriculum development activities at John F. Kennedy Middle College High School revolve around the California State Standards. During the 2016-2019 school year, John F. Kennedy Middle College High School held and will continue to hold staff development training devoted to:

- AVID
- Common Core State Standards
- College and Career Readiness
- AVID Focus Notes and Strategies
- Common Formative Assessments
- Ed Tech
- Norco College information systems
- CANVAS training
- Google classroom

Decisions concerning selection of staff development activities are performed by all staff using tools such as teacher input and data analysis to determine the areas in which additional teacher training may enhance classroom instruction and increase student achievement levels. John F. Kennedy Middle College High School supports ongoing professional growth throughout the year during staff meetings and early release Fridays. We have approximately two staff meetings a month with each dedicated in part or in whole to PD. The Friday PCT time is teacher driven and PD is determined at their discretion. Teachers meet in both grade level and department level teams to conduct data analysis to identify areas of need. Teaching staff are provided the opportunity to participate in district-sponsored staff development workshops or training session as 1) a supplement to site-based staff development, 2) for reinforcement of or follow-up on previous training, or 3) follow-up training for newly implemented programs/curricula.

During the 2016-2019 school year, John F. Kennedy Middle College High School's teachers had the opportunity to attend the following events hosted by the Corona-Norco Unified School District:

- 21st Century Learning Design: SAMR
- Active Shooter
- Benchmark Planning
- AP Euro Pilot Teacher Training
- AP Physics Collaboration
- AP Science Collaboration
- Application of Instructional Shifts in Lesson Design
- Assessment Building
- Autism CPI Training
- Advancement Via Individual Determination Training
