School Accountability Report Card

Reported Using Data from the 2019-2020 School Year

Published During 2020-2021

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF webpage at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

School Description and Mission Statement (School Year 2020-2021)

Mission: To save lives.

Vision: To educate students in a loving and nurturing environment. To provide an environment where every student feels valued and is able to connect with their education and their future. To provide pathways to the next steps in students' lives. To build trusting relationships with our students and "walk with them" as they build the skills and confidence to find success. To value every child who comes to us.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Indicator	2018-19	2019-20	2020-21
Misassignments of Teachers of English Learners	0	0	0
Total Teacher Misassignments*	0	0	0
Vacant Teacher Positions		0	0

Note: "Misassignments" refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc.

*Total Teacher Misassignments includes the number of Misassignments of Teachers of English Learners.

Quality, Currency, Availability of Textbooks and Other Instructional Materials (School Year 2020-2021)

Year and month in which data were collected: September 1, 2020

All textbooks used in the core curriculum are aligned to the California State Standards. Instructional materials are selected from the state's most recent list of standards-based materials and adopted by the State Board of Education. The district follows the State Board of Education's six-year adoption cycle for core content materials (English/language arts, math, science, and social science).

On Tuesday, September 1, 2020, the Corona-Norco Unified School District's Board of Education held a public hearing to certify the extent to which textbooks and instructional materials have been provided to students. The Board of Education adopted Resolution No. 46 which certifies as required by Education Code §60119 (1) that textbooks and instructional materials were provided to all students, including English learners, in the district to the extent that each pupil has a textbook or instructional materials, or both, to use in class and to take home, and (2) sufficient textbooks and instructional materials were provided to each student, including English learners, that are aligned to the academic content standards and consistent with the cycles and content of the curriculum frameworks in math, science, history-social science, and English/language arts.

In addition to core subject areas, districts are required to disclose in their SARCs the sufficiency of instructional materials used for their visual/performing arts curricula. During the 2020-21 school year, Corona-Norco Unified School District provided each student, including English learners, enrolled in a visual/performing arts class with a textbook or instructional materials to use in class and to take home. These materials complied with the state's content standards and curriculum frameworks.

School Facility Conditions and Planned Improvements

The district takes great efforts to ensure that all schools are clean, safe, and functional through proper facilities maintenance and campus supervision. Orange Grove High School's original facilities were built in 1955; ongoing maintenance and campus improvements ensure facilities remain up to date and provide adequate space for students and staff. District maintenance and site custodial staff ensure that the repairs necessary to keep the school in good condition are completed in a timely manner. A work order process is used by school and district staff to communicate non-routine maintenance requests. Emergency repairs are given the highest priority. In the last 12 months, the following improvements have been completed:

- Addition of a faculty workroom
- Renovated library - converted to digital library

2017-18 Improvements in Process:

- New concrete, drainage and new tables in lunch area
- Remove wall between two classrooms to create a bigger construction classroom

Every morning before school begins, the custodians inspect facilities for safety hazards or other conditions that need attention prior to students and staff entering school grounds. A team of three custodians are assigned to Orange Grove High School. The day custodians are responsible for:

- Classroom cleaning
- General grounds maintenance
- Office area cleaning
- Restroom cleaning

Restrooms are checked regularly throughout the day for cleanliness and subsequently cleaned as needed. The evening custodian is responsible for:

- Classroom cleaning
- Office area cleaning
- Restroom cleaning

The principal communicates with custodial staff daily concerning maintenance and school safety issues.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Mathematics (grades 3-8 and 11)	0	N/A	47	N/A	39	N/A

Note: Cells with N/A values do not require data.

Note: The 2019-2020 data are not available. Due to the COVID-19 pandemic, Executive Order N-30-20 was issued which waived the requirement for statewide testing for the 2019-2020 school year.

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Career Technical Education Programs (School Year 2019-2020)

Students in grades nine through twelve receive counseling from school personnel regarding career paths and courses of study. During their freshman year, students meet with the Career Center Advisor and Counselor to discuss their four-year academic plan and are introduced to technical and career education programs; the Career Center Advisor and Counselor meets at least once a year with each student to follow-up on their progress in meeting graduation requirements and career objectives. All career and technical education (CTE) courses comply with state-adopted content standards and are integrated into the student's four-year academic plan as elective courses. The following programs are offered that promote leadership, develop job-related skills, provide on-the-job experience, and increase interest in school:

CTE/Regional Occupational Programs

- Workability
- Career Pathways
- California Colleges
- Individual student assessment of work readiness skills takes place through:
 - Completion of course-required projects
 - On-the-job observation
 - Classroom observation
 - Self-Assessment Program

Regional Occupational Programs (ROP) are offered in partnership with the County Office of Education. A variety of career technical education courses are available to help prepare high school students (16 years and older) for entry-level employment, upgrading current job skills, or obtaining more advanced levels of education. Workability provides work experience opportunities outside the school day that meet the students' interests and aptitudes while providing real-world job experience prior to graduation. The program is available to all students with disabilities who have an Individualized Education Plan. California Colleges is an online, interactive career resource that provides students with interest inventories, matches students with careers they might find interesting, and provides college and career planning tools that integrate the 15 California Career Technical Education industry sectors. Centennial High School students create individual Learning Plans and complete online portfolios demonstrating college and career readiness. During the 2019-20 school year, the following CTE elective course:

CTE Pathways:

- Visual/Commercial Art Multimedia Production
- Residential and Commercial Construction
- Business Management
- Patient care
- Food Services and Hospitality
- Networking
- Games and Simulation
- Systems Programming
- Graphic Production Technologies

Our high schools receive funds from the Carl D. Perkins Vocational and Technical Education Act (Perkins). This grant enables our sites to provide its students with the academic and technical skills needed to succeed in a knowledge- and skills-based economy and helps provide programs that prepare students for both postsecondary education and the careers of their choice. CTE table in this report shows the total number of students participating in the district's CTE courses and regional occupational programs and program completion rates. For more information on career technical programs, ROP, workability, partnership academies, and work experience, contact the Career Center Advisor and Counselor or visit the state's career technical website at <http://www.cde.ca.gov/ci/ct/>.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2020-2021)

Orange Grove encourages our parents to become part of the school community. We welcome parents by providing services and opportunities for them to join us.

Parents will find that our office staff, counselors and administrators are easy to reach and are eager to work with them. This might involve problem-solving with the parent, referrals to outside agencies for assistance, or simply listening. Our approach is to do whatever we can to help our students, and by extension, their families. We believe that our parents know their children and have an essential perspective for helping them.

We know that our parents might be discouraged and we provide as many positive contacts with the school as possible. These include inviting parents to student celebrations, which are held monthly, and sending positive messages home from the staff regarding the child.

When we build a positive relationship, we know that parents are more likely to join in the opportunities at the school, including:

Committees

- English Learner Advisory Council
- District English Learner Advisory Council
- School Site Council
- WASC Committee
- Focus on Learning Accreditation Committee
- Model Continuation School Committee

School Activities

- Back to School Night
- Open House
- Parent Orientation
- Various Community Service Activities

Parents are encouraged to get involved in their child's learning environment either by volunteering in the classroom, participating in a decision-making group, or simply attending school events.

Parents stay informed on upcoming events and school activities through email, parent orientation, the school calendar, the message broadcast system, and Facebook. Parents are encouraged to attend an orientation meeting prior to enrollment to review school policy and procedures. Contact Kenny Torres, Principal at (951) 736-3339 for more information on how to become involved in your child's learning environment.

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates; and
- High school graduation rates.

Suspensions	25.9	2.4	2.5
Expulsions	2.8	0.1	0.1

Note: The 2019-2020 suspensions and expulsions rate data are not comparable to prior year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to prior years.

School Safety Plan (School Year 2020-2021)

The Comprehensive School Site Safety Plan was developed for Orange Grove High School in collaboration with local agencies and the district office to fulfill Senate Bill 187 requirements. Components of this plan include child abuse reporting procedures, teacher notification of dangerous pupil procedures, disaster response procedures, procedures for safe arrival and departure from school, sexual harassment policy, and dress code policy. The school's most recent school safety plan was reviewed, updated, and discussed with school staff in October 2020.

Types of Services Funded (Fiscal Year 2019-2020)

For the 2019-20 school year, Corona-Norco Unified School District spent an average of \$6537.31 of total general funds to educate each student (based on 2019-20 audited financial statements and in accordance with calculations defined in Education Code §41372). The table in this report 1) compares the school's per pupil expenditures from unrestricted (basic) and restricted (supplemental) sources with other schools in the district and throughout the state, and 2) compares the average teacher salary at the school site with average teacher salaries at the district and state levels. Detailed information regarding salaries can be found at the CDE website at www.cde.ca.gov/ds/fd/ec/ and www.cde.ca.gov/ds/fd/cs/. (The figures shown in the table below reflect the direct cost of educational services, per ADA, excluding food services, facilities acquisition and construction, and certain other expenditures.)

In addition to general fund state funding, Corona-Norco Unified School District receives state and federal categorical funding for special programs. For the 2019-20 school year, the district received categorical, special education, and support programs funds for:

- After School Education & Safety (ASES)
- Agricultural Career Technical Education Incentive
- California Career Pathways Trust
- California Clean Energy Jobs Act
- Department of Rehabilitation
- Education Protection Account
- Lottery: Instructional Materials

Professional Development (Most Recent Three Years)

Measure	2018-19	2019-20	2020-21
Number of school days dedicated to Staff Development and Continuous Improvement	515	321	321

Are primary focus with a change in the new bell schedule was rigor in the classroom. We needed to increase the instructional strategies in the classroom for student engagement. Six staff members attended AVID summer institute for three days in San Diego, California. The other staff development on-campus was during our professional learning time on Wednesdays. The SIOP strategies training was delivered at Orange Grove High School over a 6-month period. The teachers were supported with follow-up meetings and coaching by our TSA's and administration. ACELLUS training was offered for 5 of our staff members teaching our new credit recovery program. The Restorative Practices training is on-going. We have a PBIS team on-campus and district school psychologist works with our staff on the refinement of our PBIS plan.

During the 2018-2019 school year, the Orange Grove staff is participating or has participated in the following professional development:

- AVID Summer Institute
- Interactive Notebook training
- Restorative Practices training
- MTSS training
- Literacy Training

This years focus is on the implementation of AVID campus with and Literacy across the curriculum. We have tested all of our students and the need for increased reading and writing in the classroom was evident. All of our professional development is student-centered but has not always been data driven. This year we have tried to use our reading assessment data to drive the implementation of AVID strategies, and the literacy training. Also, the use of interactive notebooks in the classroom required further training from an outside source. All the professional development training is meant to increase the number of reading and writing opportunities in the classroom for our students. All of our professional development is delivered during our Wednesday PD time or off-site. We meet in our professional learning groups weekly where administration will follow-up with the staff members for progress on the school goals. Coaching is offered if groups are not making progress. We narrowed the professional development this year as to focus on a couple of specific needs for students.

During the 2019 - 2020 and the 2020-2021 school year, there has been a shift in the way Professional Learning has been offered and the focus. This change was in response to the needs of the stakeholders across the district.

1. Total number of districtwide sessions – CNUSD switched from days to sessions. CNUSD had 321 professional learning titles with 839 sessions lasting from 1 hour to 6 hours depending on the training and the setting. This year in April, in response to the pandemic, the trainings all moved to online model. CNUSD logged 19,312 staff members attending sessions throughout the 19-20 school year. This includes both certificated and classified
2. Districtwide staff development topics – The focus for professional learning were: first best instruction, family & school partnerships, positive school environment, and systems leadership & collaboration.

Additional topics include –

- Technology tools: Zoom, Google (Chrome, Classroom, Docs, Forms, Slides, Hyperslides), Q student data system, Microsoft, Canvas, SchoolMessenger
 - Assessment tools and programs: Illuminate, i-Ready
 - Content area instruction in all areas ELA, Math (new adoption for HS math), Science, History, Health
 - Social emotion learning – building relationships, MTSS, PBIS, restorative practices, morning meetings, SEL capacities
 - English learners – EL contact training, iLit (ELD training), Ellevation program, EL in Action, Bilingual paraprofessionals
 - Special Education – Boy’s Town, CPI training, virtual IEPs, ELA accommodations in the classroom, ABA fundamentals
 - Collaboration sessions – DLI, ELs, grade levels, content areas, SPED, Professional learning communities
 - Classified – Registration, technology tips, custodial equipment, personal wellness, customer service, student attendance, accounts payable
3. Supplementary instruction provided - coaching, instructional support, modeled lessons, collaborative sessions, modeled units of study, instructional support website with resources and aids
