

PHILOSOPHY-GOALS-OBJECTIVES AND COMPREHENSIVE PLANS

FEDERAL FINANCIAL AID-CONTROL OF PUBLIC EDUCATION

The Corona-Norco Unified School District's Board of Education adheres to the belief that the control of public education rests with the local community, operating within the laws established by the State of California.

The public schools should, for the most part, be financed cooperatively by local and state funds.

The Board of Education recognizes the interest the Government of the United States has in maintaining the strength of this country through an educated citizenry and that federal funds are available for strengthening local education programs. The superintendent shall seek and accept federal funds to finance these programs for the Corona-Norco Unified School District if the following conditions are present:

- A. All programs instituted with federal funds are beneficial to the education of students within the school district.
- B. Local or state funds to support needed programs are unavailable.
- C. Discontinuance of educational programs financed with federal funds would not seriously impair the basic educational program of the district.
- D. All programs instituted with federal funds are in harmony with the educational philosophies of the district.
- E. Control of all federally financed programs rests with the Board of Education, operating within the laws of the State of California.

Any program to be financed with federal funds shall be approved by the Board of Education.
