

COMMUNITY RELATIONS

DISTRICT AND SCHOOL WEB SITES

To enhance communication with students, parents/guardians, staff, and community members, the Governing Board encourages the Superintendent or designee to develop and maintain district and school web sites. The use of district and school web sites shall support the district's vision and goals and shall be coordinated with other district communications strategies.

Design Standards

The Superintendent or designee shall establish design standards for district and school web sites in order to maintain a consistent identity, professional appearance, and ease of use.

The district's design standards shall address the accessibility of district-sponsored web sites to individuals with disabilities, including compatibility with commonly used assistive technologies.

Guidelines for Content

The Superintendent or designee shall develop content guidelines for district and school web sites and shall assign staff to review and approve content prior to posting.

Board policy pertaining to advertising in district and school publications shall also apply to advertising on district and school web sites.

Privacy Rights

The Superintendent or designee shall ensure that the privacy rights of students, parents/guardians, staff, Board members, and other individuals are protected on district and school web sites.

Telephone numbers and home and email addresses of students and/or their parents/guardians shall not be published on district or school web sites.

Because of the wide accessibility of the Internet and potential risk to students, photographs of individual students shall not be published with their names or other personally identifiable information without the prior written consent of the student's parent/guardian.

Photographs of groups of students, such as at a school event, may be published provided that students' names are not included.

Staff members' home addresses or telephone numbers shall not be posted on district or school web sites.

The home address or telephone number of any elected or appointed official including, but not limited to, a Board member or public safety official, shall not be posted on district or school web sites without the prior written permission of that individual.

No public safety official shall be required to consent to the posting on the Internet of his/her photograph or identity as a public safety officer for any purpose if that officer reasonably believes that the disclosure may result in a threat, harassment, intimidation, or harm to the officer or his/her family.

The Superintendent or designee shall ensure that copyright laws are not violated in the use of materials on district and school web sites. If any copyrighted material is posted, a notice shall be included crediting the original producer of the material and noting how and when permission to reprint the material was granted.

The Superintendent or designee may assign additional staff members to conduct an editorial review of all materials submitted for publication on district or school web sites and to make corrections as needed in spelling, grammar, or accuracy of content.

The Superintendent or designee shall provide staff development opportunities related to district content guidelines, design standards, and accessibility laws and standards to district communications and technology staff, district and school webmasters, and/or other appropriate staff.
