INSURANCE COVERAGE

STUDENT ACCIDENTS

In all student injury cases, the school nurse shall be notified along with the parent or guardian.

- A. If the parent or guardian cannot be reached, and the nature and severity of the injury requires hospital attention, the student should be taken with his/her emergency card to the emergency ward of the closest hospital.
- B. Each hospital has a procedure with law enforcement agencies to render medical treatment to students in cases of emergency.

All student accidents shall be reported promptly to the Business Office on the Student Accident Report Form. If a major injury or hospitalization appears likely, the Business Office shall be notified by phone, and the Student Accident Report Form hand delivered to the Business Office.

The district is covered by general liability insurance which protects the district against negligence. The district's insurance carrier will be notified of the incident and all discussion of liability will be addressed to it.
