STUDENTS

BULLYING

The Governing Board recognizes the harmful effects of bullying on student well-being, student learning, and school attendance and is committed to providing all students with a safe and healthy school environment that protects students from physical and emotional harm. To that end, the District, its schools, and the community have an obligation to promote mutual respect, tolerance and acceptance, and not tolerate behavior that infringes on the safety of any student, including bullying.

No individual or group shall, through physical, written, verbal, visual or other means, harass, sexually harass, threaten, intimidate, cyberbully, cause bodily injury to, or commit hate violence against any other student or school personnel, or retaliate against them for filing a complaint or participating in the complaint resolution process.

The Superintendent or designee shall develop strategies for addressing bullying in district schools with the involvement of students, parents/guardians, and staff. As appropriate, the Superintendent or designee may also collaborate with social services, mental health services, law enforcement, courts, and other agencies and community organizations in the development and implementation of effective strategies to promote safety in schools and the community. Such strategies shall be incorporated into the comprehensive safety plan and, to the extent possible, into the local control and accountability plan and other applicable district and school plans.

Any complaint of bullying shall be investigated and, if determined to be discriminatory, resolved in accordance with law and the district’s uniform complaint procedures specified in AR 1312.3. If, during the investigation, it is determined that a complaint is about nondiscriminatory bullying, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

If the Superintendent or designee believes it is in the best interest of a student who has been the victim of an act of bullying, as defined in Education Code 48900, the Superintendent or designee shall advise the student’s parents/guardians that the student may transfer to another school. If the parents/guardians of a student who has been the victim of an act of bullying requests a transfer for the student pursuant to Education Code 46600, the Superintendent or designee shall allow the transfer in accordance with law and district policy on intradistrict or interdistrict transfer, as applicable.

Any employee who permits or engages in bullying or retaliation related to bullying shall be subject to disciplinary action, up to and including dismissal.

Teachers should discuss this policy with their students in age-appropriate ways.

Bullying Prevention

To the extent possible, district and school strategies shall focus on prevention of bullying by establishing clear rules for student conduct and strategies to establish a positive, collaborative
school climate. Students shall be informed through student handbooks, district and school web sites and social media, and other age-appropriate means, of district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for engaging in bullying.

Students shall be encouraged to notify school staff when they are being bullied or when they suspect that another student is being bullied, and shall be provided means by which students may report threats or incidents confidentially and anonymously.

District employees shall be notified annually, pursuant to Education Code 234.1, that any staff who witnesses an act of bullying against a student has a responsibility to immediately intervene to stop the incident when it is safe to do so.

Based on an assessment of bullying incidents at school, the Superintendent or designee may increase supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, cafeterias, etc.

Student Instruction

As appropriate, the district shall provide students with instruction, in the classroom or other educational settings, that promotes social-emotional learning, effective communication and conflict resolution skills, character development, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior. Such instruction shall also educate students about the negative impact of bullying, discrimination, intimidation, and harassment based on actual or perceived immigration status, religious beliefs and customs, or any other individual bias or prejudice.

Students should be taught the difference between appropriate and inappropriate behaviors, how to advocate for themselves, how to help another student who is being bullied, and when to seek assistance from a trusted adult. As role models for students, staff shall be expected to demonstrate effective problem-solving and anger management skills.

To discourage cyberbullying, teachers may advise students to be cautious about sharing passwords, personal data, or private photos online and to consider the consequences of making negative comments about others online.

Staff Development

The Superintendent or designee shall annually make available to all certificated staff and other employees who have regular interaction with students the California Department of Education (CDE) online training module on the dynamics of bullying and cyberbullying, including the identification of bullying and cyberbullying and the implementation of strategies to address bullying. (Education Code 32283.5)
The Superintendent or designee shall provide training to teachers and other school staff to raise their awareness about the legal obligation of the district and its employees to prevent discrimination, harassment (including sexual harassment), intimidation, and bullying of district students. Such training shall be designed to provide staff with the skills to:

1. Discuss the diversity of the student body and school community, including their varying immigration experiences

2. Discuss bullying prevention strategies with students, and teach students to recognize the behavior and characteristics of bullying perpetrators and victims

3. Identify the signs of bullying or harassing behavior

4. Take immediate corrective action when bullying is observed

5. Report incidents to the appropriate authorities, including law enforcement in instances of criminal behavior

Retaliation Prohibited

The initiation of a report of bullying should not reflect on the reporting student or witnesses in any way. It should not affect the student’s future relationship with the school system, grades, class selection or other matters pertaining to their status as a student in any program.

Investigation Procedures

1. Reporting and Filing of Complaints

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee.

The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. When a student uses a social networking site or service to bully or harass another student, the Superintendent or designee may file a request with the networking site or service to suspend the privileges of the student and to have the material removed.
2. Responsibilities of Employees

When it is safe to do so, employees who receive reports of bullying or observe an act of bullying should immediately stop the behavior and inform the principal or designee at the school the student attends within one business day.

It is the responsibility of the employee, regardless of whether a student has filed a complaint, asked the school to take action, or identified the harassment as bullying to report the incident.

Within two business day of receiving a report of bullying, the principal shall notify the district compliance officer identified in AR 1312.3.

3. Administrative Review and Procedure

a. Investigation

All matters regarding bullying should be thoroughly investigated within five days of the initial report. c. Confidentiality

Reasonable efforts will be made to keep a report of bullying and the results of the investigation confidential. Witnesses should be informed of the confidential nature of the investigation and should be asked to refrain from disclosing the nature of the investigation to others.

d. Corrective Actions/Discipline

Upon completion of the investigation, the principal or designee shall determine the appropriate action, if any, to take.

Corrective actions may include, but not be limited to, counseling, behavioral intervention and education, warning, or initiating disciplinary procedures up to and including suspension, involuntary transfer or expulsion, in accordance with district policies and regulations, against the offending student. To suspend or expel a student for bullying, the behavior must meet the definition of bullying in Education Code 48900.

When appropriate based on the severity or pervasiveness of the bullying, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators and may contact law enforcement.

Corrective actions should be designed to prevent reoccurrence of the bullying. All corrective actions shall be recorded in the Student Information System.

4. Support Services

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate. (Education Code 48900.9)

If any student involved in bullying exhibits warning signs of suicidal thought or intention or of intent to harm another person, the Superintendent or designee shall, as appropriate, implement district intervention protocols which may include, but are not limited to, referral to district or community mental health services, other health professionals, and/or law enforcement.
5. Follow-up

The site administrator will ensure that students and their families know how to report subsequent problems, and conduct follow-up inquiries to determine if there have been any instances of retaliation and respond promptly to address continuing or new problems.

A bullying resolution may be appealed consistent with Board policy, administrative regulation and law.

a. The burden shall be on the appealing party to show why the principal’s/designee’s decision should be overruled.

b. Immediately following, or within ten (10) days of the resolution, the appealing party shall complete and submit a written request to the Director of Student Support Services specifying the reasons why the resolution is being challenged.

c. The District Director’s written decision to support or overrule the resolution will be sent to the principal/designee, and the parent/guardian.

d. AR 5208 5131.2Within 30 days of receiving the request, the Director of Student Support Services shall determine whether or not to approve or deny the parent/guardian’s request. Prior to making this determination, the District Director may meet with the appealing party and principal/designee. If the District Director determines that the appealing party has overwhelmingly proven that the principal’s/designee’s decision should be overruled, the District Director shall overrule the site’s decision.

e. The District Director’s decision may be appealed by submitting a written request to the Board of Education within 15 school days. Within 30 days of receipt of a written appeal, or at the next scheduled Board meeting, the Board of Education shall meet in closed session to decide the appeal. The Board’s decision may be made on the basis of documentation prepared as part of the appeal process or, at the discretion of the Board, the Board may also meet with the appealing party, the principal/designee, and the District Director to decide the appeal.
